## **Southeastern Idaho Public Health is offering free rapid Hepatitis C testing for the month of July**

In recognition of World Hepatitis Day on July 28th, Southeastern Idaho Public Health (SIPH) is offering free rapid Hepatitis C testing for qualified individuals at all of their offices throughout the month of July. Testing is available by appointment only. If you were born between 1945-1965, you are at risk. If you have ever injected drugs, you are at risk. If you received a blood transfusion or an organ transplant prior to July 1992, you are at risk. Not everyone has symptoms of Hepatitis C: the only way to know is to GET TESTED!

For more information, contact Southeastern Idaho Public Health at 233-9080 or visit [www.siphidaho.org](http://www.siphidaho.org).
