**Prescription Drug Monitoring Program at Southeastern Idaho Public Health**

Darlene Davis works on the Prescription Drug Monitoring Program at Southeastern Idaho Public Health. The focus is to get into clinics and have them use this monitoring program. If a doctor is going to write a prescription for an opioid, the database would provide information written from any doctor, anywhere. The goals are to:

1. Increase the number of prescribers registered for the Prescription Drug Monitoring Program (PDMP)
2. Educate prescribers on proper treatment of pain and signs, symptoms, and dangers of prescription misuse and abuse
3. Identify and fill gaps in data regarding prescription drug abuse and misuse
4. Identify and eliminate issues that make enforcement and prosecution of prescription drug related crimes difficult
5. Plan, implement, and evaluate educational campaigns designed to inform Idahoans on the consequences of misuse and abuse.

The purpose of these goals is to reduce prescription drug abuse.

**Minute Approval**

- Kimberly Thomas motioned to approve the minutes as written. Lynda Shiflet seconded the motion; all in favor, motion passes.

**Board Business**

Finishing some board discussions:

Minutes - Minutes for the Behavioral Health Board need to contain agenda items, action items discussed, and votes taken. Other detail is not necessary.

By-laws – Laurie will send out a copy of the Open Meeting Laws for review. The Board will need to discuss possible revision of by-laws to be in compliance with Open Meeting Law.

Action Item – Discuss State Planning Council Goals and process of communication.

Conflict of Interest form – All Board members need to read and sign this form and return it to Laurie Brenchley

Code of Conduct form – All members need to read and sign this form and return it to Laurie Brenchley

**Crisis Center Update**

Brad Baker reported on the Crisis Center. Ross Edmunds has instructed that the contract be set up in this fiscal year in order to access the $200,000 startup funds. January 1 is the opening date. The committee will be going into a formalized bidding contract for the operations of the Crisis Center. The board has to be established 45 days before the doors open.

**Subcommittee Update**

Children’s Mental Health Subcommittee – Had discussion on where the subcommittee wants to go, and how to build on some of the previous accomplishments. They are trying to develop ways to help parents and target stigma.

The Recovery Support Services Subcommittee – has had a booth at the farmer’s market for disseminating information about the Behavioral Health Board, and other mental health programs.
