

Southeastern Idaho Public Health

Test Your Way! Do It Today!

National HIV Testing Day is Wednesday, June 26. To recognize this national event and to encourage residents of Southeast Idaho to know their HIV status, Southeastern Idaho Public Health will be conducting **FREE** HIV, Hepatitis C (Hep C) and Syphilis testing for the entire month of June at all of their 8 clinic locations. The Centers for Disease Control and Prevention (CDC) estimates that 1 out of 7 people living with HIV don't know they have it and 4 in 10 new HIV infections come from people who don't know they're infected. The decision to take an HIV test is the first step to keep yourself and those around you healthy! Southeastern Idaho Public Health also offers free condoms (no appointment necessary), reproductive health visits, birth control, immunizations, and other health services on low-cost, sliding fee scales. Give us a call; we're happy to answer your questions! Please come and see us for free testing if you can answer 'yes' to any of the following questions...

1. Have you had unprotected sex?
2. Have you had sex with a new partner?
3. Have you injected drugs or steroids or shared equipment (such as needles, syringes, works) with others?
4. Have you been diagnosed with or treated for hepatitis, tuberculosis (TB), or a sexually transmitted disease (STD), like chlamydia?
5. Have you had sex with someone who could answer yes to any of the above questions?

Gain knowledge and take control of your health.....**GET TESTED!**

For more information about HIV or to schedule an appointment for FREE HIV, Hep C or Syphilis testing, please contact your local Southeastern Idaho Public Health office or visit www.siphidaho.org.
